

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93667
Title of the Manuscript:	EVALUATION OF DIFFERENT VARIETY OF CORIANDER (Coriandrum sativum L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I would suggest revising the "Introduction" section. You have repeated the same information time and again. Make revisions as I have suggested in the manuscript.	
Minor REVISION comments	Do as it is in manuscript	
Optional/General comments	If you review some recent information, it will better. In text citation, you have written Agarwal et al. 1990 for both of these reference. How can I distinguish which Agarwal you are referring for? Agarwal, S. and Sharma, R.K., 1990 and Agrawal, S., Sharma, R.K. and bhatt, B.N., 1990. In most of the journal, if there are two authors then it is written as Agarwal and Sharma, 1990. Over all, you have done hard work. I would like to encourage you, keep it up.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
