PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract meets all the requirements and contains the necessary information. The introduction introduces the reader to the cowpea crop, its importance to India, and the problems associated with its cultivation. The materials and methods section describes the experiment in detail. However, data from one growing season cannot be taken as reliable! Please authors mention the control variant! The results are presented objectively and there are sufficient comparisons with previous studies on the subject. Every scientific paper must necessarily contain a conclusion section. The conclusions present the most important results obtained from the conducted research. For the higher quality of the article, I request the author(s) to add a conclusion section!	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
