

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93808
Title of the Manuscript:	EFFECT OF IRRIGATION LEVELS, NIPPING AND FOLIAR SPRAY OF NUTRIENTS WITH GROWTH REGULATORS ON YIELD, YIELD PARAMETER AND ECONOMICS OF TRANSPLANTED PIGEONPEA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ul style="list-style-type: none"> Add a space while writing the term - "Pigeon pea", wherever necessary in the manuscript. Abstract, Background, 2nd line: Hence the present study was carried out in combination- add an article & change the preposition. Abstract, Methods, 1st line: conducted in a split- add an article; treatment-change the noun form. Abstract, Methods, 1st line: Kharif- change the capitalization. Abstract, Result, 2nd line: yield parameters- fix the agreement mistake. Pg. no.2, 3rd line: conditions through the addition-correct article usage. Pg. no.2, 2nd paragraph, 1st line: In the state of Karnataka pigeon pea is largely grown in the Northern-correct the usage of articles. Pg. no.2, 3rd paragraph, last line: for the utilization-add an article. Pg. no.2, last paragraph, 2nd line: advantages like the maintenance of the required-correct article usage. Materials and Methods, 1st line: Kharif- change the capitalization. Pg. no.13, 2nd paragraph, 1st & 2nd lines: noticed a significantly-correct article usage. 	
Optional/General comments	<ul style="list-style-type: none"> Pigeonpea (<i>Cajanus cajan</i> (L.) Millsp.) is one of the protein-rich pulse crops of the semi-arid tropics, grown mostly under rainfed conditions, holding an imperative place in the farming systems adopted by dry land and rainfed farmers. Water is the most important input essential to produce crops. Plants need water continuously during their life and in enormous quantities as it intensely influences photosynthesis, respiration, absorption, translocation and utilization of mineral nutrients. The statistical data analysis have been discussed at the probability level of five per cent. The study highlights the element that Economics is the foremost parameters which ultimately decides the adoption levels at farming situations of any innovative technology. However, the total manuscript has been verbosely illustrated and elegantly represented with the necessary tables of the data analyzed adding exquisite graphical depictions. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
