

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93909
Title of the Manuscript:	Genotype × Environment interaction and stability analysis for grain yield and yield related traits in little millet (<i>Panicum sumatrense</i> L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction. Botanical names must be written in <i>italics</i>. Please replace "self-pollination is the rule" with "self-pollination is carried out". "In India, little millet having 1.42 lakh tones of production" replace with "In India, little millet has very good yields, up to 1.42 lakh tones. replace with "...an area of 10,634 hectares, with a yield of 9,526 tonnes, respectively 896 kg/ha." Materials and methods. Please complete a sentence with the summary climatic characterization of the culture areas and the type of soil. Also, if any phytosanitary, biostimulant treatments or irrigation were applied to the plants. We cannot discuss the impact of environmental conditions on plants if we do not know the values of these factors. What statistical analysis software was used? Please explain the "Estimation of environment index (Ij)" (formula) and the Harvest index (%). Results and Discussions. please check the spaces between words throughout the text. the results are presented well and the conclusions are relevant. References. There are some citations that are not in the text, please check: Finlay, K. W. and Wilkinson, G. N. (1963). The analysis of adaption in plant breeding programme. Australian Journal of Agricultural Research, 14: 742-754.</p>	
Minor REVISION comments	Please see the observations written above.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
