

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93939
Title of the Manuscript:	Effect of plantation tree species with varied cropping systems on depth wise rate of soil carbon sequestration and soil chemical properties
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is well written and presents a very interesting study confirming the potential of carbon sequestration and its importance for soil health. Language should be edited for the whole article Check journal guidelines	
Minor REVISION comments	Add following references Datta A, Basak N, Chaudhari SK, Sharma DK. Soil properties and organic carbon distribution under different land uses in reclaimed sodic soils of North-West India. Geoderma Regional. 2015 Apr 1;4:134-46. Lemma B, Kleja DB, Nilsson I, Olsson M. Soil carbon sequestration under different exotic tree species in the southwestern highlands of Ethiopia. Geoderma. 2006 Dec 15;136(3-4):886-98.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
