

## Review Form 1.6

Journal Name:	Journal of Advances in Microbiology
Manuscript Number:	Ms_JAMB_93266
Title of the Manuscript:	Multi-Drug Resistance to Campylobacter Species of Poultry Origin in Ado-Ekiti
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamb.com/index.php/JAMB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>General:</b> The author should use any reference publish less than five years (a recent article). <b>Introduction section:</b> The author should add information to explain the following query: Is <i>Campylobacter jejuni</i> contamination or normal flora in poultry? What is the prevalence of antibiotic resistance Campylobacter jejuni in poultry? What is the objective of the study? <b>Method section:</b> What is the reference of this sentence: The zones of inhibition were interpreted by comparing with the standard antibiotic sensitivity chart to determine the resistance pattern...? <b>Result section:</b> What the meaning of this sentence: Each of the isolates was resistant to all the antibiotics with resistance to ceftazidime and amoxicillin having the highest percentage and resistance to enrofloxacin being the least..? The authors should explain the purposes of presenting Tables 2 and 3 and discuss them accordingly. <b>Conclusion and Recommendation</b> The conclusion has not based on the result. The recommendation should associate with the source (contamination or normal flora) of Campylobacter jejuni resistance in poultry.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
