## Review Form 1.6

### PART 1: Review Comments not be possible if incomplete information is received.

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Major</b> REVISION comments	<p>I am appreciative of the chance to read this informative work. When reading this study, the following revisions should be performed to enhance its quality.</p> <ol style="list-style-type: none"> <li>1. I noted few typos and wrong English exposition which can be fixed before submitting the revised version of the paper.</li> <li>2. In order to motivate the work, there needs to be some connection to recent research.</li> <li>3. Are there any other applications for the inequalities and theories the authors developed in this paper?</li> <li>4. The conclusion of the paper needs to be rewritten.</li> <li>5. I suggest that the number of equations must put at the end of the line.</li> </ol> <p>I suggest publishing the manuscript after major revisions. I appreciate you.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
