

## Review Form 1.6

Journal Name:	<b>Journal of Advances in Medicine and Medical Research</b>
Manuscript Number:	<b>Ms_JAMMR_93029</b>
Title of the Manuscript:	<b>A Study of Cancer Antigen-125 as a Diagnostic Marker in Tuberculous and Malignant Pleural Effusion</b>
Type of the Article	<b>Original Research Article</b>

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamr.com/index.php/JAMMR/editorial-policy> )

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Compulsory</b> REVISION comments	Exclusion criteria,: They must be specified with greater precision because the way they are written can lead to error (other non infectious diseases).	
<b>Minor</b> REVISION comments	In the introduction I miss a table with the classical Light's criteria.	
<b>Optional/General</b> comments	I would recommend writing the conclusions with greater precision, since taking into account that one of the limitations of the study was that "the sensitivity and specificity of CA-125 was not assessed in combination with other biomarkers". I think the last conclusion should be should be revised based on more solid evidence.	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Are there ethical issues in this manuscript?</b>	<b><i>(If yes, Kindly please write down the ethical issues here in details)</i></b>
