PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is very well written and very comprehensive. The authors have done a very thorough study of the literature as well as the geographical area. However, there are some issues, which the authors should address. 1. The objective should be well defined in the abstract itself. 2. The mixed approach is not clear in the abstract 3. How the remote sensing images are used here is not clear 4. In the abstract, there is no mention of the remotely sensed images 5. How the Land cover map is obtained (Eg., Figure 2) ? Using what tool 6. A small description about the land cover/use classification using remotely sensed data would be useful	
Minor REVISION comments	Minor grammatical errors 1. Page 14, Discussion 2 nd paragraph. The first line does not make sense.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
