PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript describes the Phytochemical profile, antioxidant and antibacterial activities of <i>Ephedra alata</i> extract against pathogenic bacteria and discusses an interesting topic; however, there are some suggested comments 1- The amount of information is insufficient to provide an answer to the query regarding the phytochemical makeup of <i>Ephedra alata</i> extract. For each component that the qualitative test has revealed to be present, the author should provide quantitative data. 2- The study of the antibacterial activity should provide information about the values of the MIC for each test organism 3- The language should be improved	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
