

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_88998
Title of the Manuscript:	FACTORS AFFECTING RECURRENCE RATE OF URETERAL STRICTURE FOLLOWING INTERNAL URETHROTOMY
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lac k of N o velt y**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract should be written in 250 words (excluding keywords). Table.01 shows 27 (SD \pm 05), author should clearly indicate the value of SD, instead of writing SD. English language editing is required throughout the manuscript. There is no specific data analysis section in this manuscript. I would suggest to elaborate more on statistical analysis and logic of the test used in this manuscript. Results section should be described a little more. Current interpretation in the results section isn't enough to justify the data analysis.	
Minor REVISION comments		
Optional/General comments	This manuscript may be accepted only after all necessary corrections have been made by the authors.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
