

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_93358
Title of the Manuscript:	ASTEMIZOLE-METHYLENE BLUE COMBINATION THERAPY REDUCES MONOTHERAPY ADVERSE EFFECTS IN BALB/C MICE
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Results to be separated from discussion The title for figures should be above the figure and not below	
Minor REVISION comments	Look for grammatical errors In abstract- it should be written- combination group showed better results in terms of safety than monotherapy with either drug alone Long QT interval causes arrhythmias and not tremors Sentence ambiguous in results- the blue colour was indicative of methylene blue absolute and absorption and Bioavailability Mechanism of action of methylene blue is polymerisation of heme, not crystallisation	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
