PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors has developed RP HPLC method on combination of 2 drugs. The author should mention the lambda max of both the drugs, check values of linearity of both the drugs in complete manuscript, as it varies also the retention time of both drugs, LOD LOQ value of the drugs is not given as well the recovery study has not performed which shows accuracy of the method. Also the specificity has not mentioned. The calibration curve, the specificity chromatogram is not given My suggestion to author is go trough ICH guidelines and do all the corrections and addition as mentioned above	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
