### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalprijournal.com/index.php/JPRI/editorial-policy>

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>ABSTRACT</b> Consider the objective of the study in abstract <b>METHODS</b> Transfer the objectives to the introductory item What is the statistical model you have used, have you performed the normality test? <b>DISCUSSION</b> The first three paragraphs have a bibliographic description, which could be located in the Introduction. In the fourth, fifth, sixth, seventh and eighth paragraphs it is not necessary to describe the results of other authors. The discussion of your results should be supported by other authors. <b>The item: summary</b> is not part of the structure of an article and it seems that it could be incorporated in the results item. <b>CONCLUSIONS</b> No introductory description is necessary. It should concisely describe the response of your results to your objectives.	
<b>Minor</b> REVISION comments	Consider the meaning of abbreviations such as: TC, LTOT, HRCT and others.	
<b>Optional/General</b> comments		

### **PART 2:**
