

Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_93664
Title of the Manuscript:	Risk factors associated with bacterial vaginosis in pregnant women in Senegal.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalmri.com/index.php/MRJI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Interesting manuscript however I have the following comments which need major revisions: 1) No sample size calculation. 2) Discussion: Lacks study strengths & limitations (One of the limitations is that the study doesn't address the perineal length or Ano-vaginal distance as a risk factor for BV). The discussion also lacks areas of future research. 3) No references numbers are written and no references are written at the end !!!! 4) Statistics: What are the statistical tests done ???	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
