PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|--|
| Compulsory REVISION comments | | |
| Minor REVISION comments | This work is well designed and systematically presented. However, there are some needed to be corrected and added as following <ol style="list-style-type: none">1. Since you studied in pregnant women, the word "weeks of amenorrhea" should be replaced by "weeks of gestation. Amenorrhea can be caused not only by pregnancy but also by other conditions.2. You recommended that screening for BV in pregnant women should be favored in developing countries/There should be regular laboratory screening for BV during routine prenatal visits, you should give reasons why currently the screening is not done routinely in your country. | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|--|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
