PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - The topic is interesting but to make the paper strong and appealing to readers, the following are observation and questions require justification: <ul style="list-style-type: none"> a. Are internet users highly sensitized on security and data privacy issues? Clarify this statement in your introduction paragraph b. Is Security and data privacy not one of the major problems brought by internet service? This must be stated strongly in your paper and should link to your two problem statements of internet disorder problem and internet addictive problem that results increased chances of contracting STI. If possible find a scientific model, method or principles that will help you to condense your arguments. c. You can also consider indicating the age group of children under your study if possible. d. If possible mention scientific methods adopted to come up with the conclusion in your study? e. Literature review requires some additional support references material especially on the problems of "internet disorder" and on "internet promoting STI in children". f. Ensure that your Conclusion paragraph only contains matters discussed in main document. Check your document for specification. 	
Minor REVISION comments	<ul style="list-style-type: none"> - Comment [J5] - Is it not "network of networks" and not "network of network" as stated in abstract? - Comment [J6] Justify how internet is applied to TELNET and WWW protocols. Even without internet the two protocols work. New Group as an application of internet? Justify how 	
Optional/General comments
