### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This paper presents a new representation for Euler-Mascheroni Constant and the results presented in section 3 are new and seem to be worthy of publication. After presenting known results in section 2, the author(s) gave their own results in Section 3 systematically. Before the paper is published, I advise the authors to elaborate in the introduction itself why their results are new and significant in the Riemann zeta functions $\zeta(s)$ . At the end of Theorem 3.1 the last sentence needs verbiage correction. Finally I recommend the paper be published once the above changes are made.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
