

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_91624
Title of the Manuscript:	Medicinal and biological importance of pumpkin seeds and its impact on weight
Type of the Article	

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The author(s) investigated the wellness of pumpkin seeds on hematological parameters and weight in rabbits. This research is interesting and valuable to be conducted. However, they should address the following concerns: <ol style="list-style-type: none"> <li>1. English language writing – this manuscript has a poor and many grammatical errors. Thus, a thorough English proofreading is required to enhance the clarity.</li> <li>2. Abstract – In methodology, it should not mention statistical analysis. Also, the results did not elaborate appropriately, particularly the comparison between different groups at different time points.</li> <li>3. Materials and Methods – it should be divided into “Animal study”, Blood collection and measurement”, and “Statistical analysis”.</li> <li>4. Results – Table 2 and 3 can be combined to ease the comparison in one shot. Besides, the comparison of day 0 in treated group with other day 15, 30, 45, 60 is needed to have a clearer picture on significant differences. Figure 1 should show the error bar and significant difference between control and treated groups.</li> <li>5. Discussion – Similar studies involving other plants/fruits in hematological enhancement and weight should be included and compared briefly. Lastly, limitation(s) of the study should be included.</li> </ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
