PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Extensive editing of English language and style required 2. The introduction does not provide sufficient background and include all relevant references. 3. Although all the cited references relevant to the research, but the author must include or do their literature review up to year 2021. I have seen a lot of old articles cited by the author instead showing more recent works. 4. The research design is somewhere appropriate. 5. The method is not adequately described. 6. The results are not clearly presented. All the tables should have a column where the author should site the article from where the data has been collected (Sources). 7. Please revise the conclusion. 	
Minor REVISION comments	<p>Do not write eqn after writing an equation. A sample format has given below.</p> $DIM = \frac{C_{metal} * C_{factor} * D_{intak}}{B_{weight}} \dots\dots\dots (1)$	
Optional/General comments	I would like to see the improved version of this manuscript.
