

Editor's Comment:

The revised manuscript needs to correct the following flaws prior to publication acceptance:

1. Duplicated keywords (same as the paper title) must be re-chosen.
2. Unify the use of "ha" and "hectares"; "per cent" and "%".
3. What is "mha"?
4. The correct form to cite literature in the text is "Akula et al., 2021", not "Akula, et al., 2021".
5. Typing error "b.y".
6. Number all equations, even the first one.
7. The correct punctuation is "Fayaz et al. (2121)", not "Fayaz et al., 2021".
8. What is the exact meaning of all the numbers in parenthesis in Table 3?

Many spacing and typing errors have been detected. As such, a thorough proof-check and English check is highly recommended.
