PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1- The author should ensure uniformity of citing references in the text i.e all the authors cited in the text should be in bracket together with the date of publication. This is because it is seen in the text that at times author put all in bracket and for others only the dates are in bracket. To make this more uniform, the author should place all the references on the page of reference below in order of appearance in the text and then indicate but the numbers in bracket in the text. 2- Include the y-axis to the graph found in the text and label it. Also, delete the numerous horizontal lines within the graph. Also include the title of the graph below it in time, person and place. 3- The date of each reference at the end of the document should be placed after the page number and not after the names of the authors and all references should be numbered according to the order of appearance in the text. 4- Organize the work into Background, Introduction, Methodology, Results/Discussion, Conclusion, References etc.. Do not include detail literature review into article. Preferably the Background (should not pass 1 page) and introduction should be maximum of 2 and half pages. 5- Do not include summary within the text. All should be at the level of the Background. 6- Recommendations should come after the Conclusion. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1 -Number all the figures in order of appearance in the text. 2-INSTRUMENT OF DATA COLLECTION (page 16) The research instrument used in this study is the (was the) questionnaire. 3- Page 3: Last line of the 4th paragraph: "HIV pandemic by 203014", check this figure. 	
Optional/General comments	All the text should be uniformed. Don't bold part of the text.
