### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrmh.com/index.php/AJCRMH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"><li>One issue I found here is the title does not describe the method of the study. Please mention systematic review in the title.</li><li>The objective and the question for systematic review are not clear. Is the study meant only to elucidate the approximate number of patients involved in the outbreak?</li><li>As a systematic 'review,' I believe the authors could elaborate more on the discussion section. The discussion should elaborate on why monkeypox could threaten human existence in the 21st century.</li><li>Studies reported in 2022 should give additional information on why the outbreaks happened recently, even though the countries were not centres of epidemics previously.</li></ul>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
