PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This is an interesting case report about combining both endoscopy and laparoscopy to treat patient with large benign-looking polyps. For the authors, I have any minor comments about the writing. (1) Since there is just one patient, I suggest to change "Patient A" to "The patient". (2) Do double check the manuscript, particularly the extra space and punctuation. For example, in the sentence "including laparoscopic assisted polypectomy, full thickness CELS ," there is an extra space after "CELS". Similarly, in "It should be not performed in patients with known malignancy, known polyposis syn-drome or lesions with high risk features", there is an extra space before "it". (3) Delete the comma after "Patient A".	
Optional/General comments
