PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	As stated in the case report that the resorption was increased after 6 months, so the purpose of re-implantation was to preserve the alveolar ridge height. Please comment on the management of the condition once the tooth becomes unsalvageable and how re-implantation of the tooth benefitted the patient if the prognosis turns out to be poor.	
Minor REVISION comments	Recent references need to be cited. Grammatical errors need to be taken into consideration.	
Optional/General comments	-	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
