PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	All the citations in the discussion section were not reviewed under the empirical literature. It is necessary for the Author(s) to review them before citing them while discussing the results. Some of the in-text citations under discussion of results were not in the reference. The Author(s) need to go through the entire work to ensure that all cited work are duly referenced	
Minor REVISION comments	I commend the Author(s) for this article. All comments are minor and relate to typographical issues. The comments are as attached in the various sections of the article for ease of correction by author(s).	
Optional/General comments	The section 5 was structured as in a dissertation, the Author(s) do not need to structure this section like that. 5.0. Should just be sub-titled as - CONCLUSION. The Author(s) should just draw the conclusion(s) of the study here, based on the objective(s). This does not stop the Author(s) from giving recommendation within the conclusion.	

PART 2:
