General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljesbs.com/index.php/JESBS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	-The writing style lacks consistency. For instance, spaces between periods and a new sentence and capitalization. -The references need to be more up to date. I suggest adding more very recent references. -References need to be corrected, and more need to use in-text citations. Citations lack credibility, and their date does not match the date in the references,	
Minor REVISION comments	-The paper has many minor grammar and structure mistakes. I have suggested some corrections in the annotated feedback, but around 214 other mistakes are to be addressed. I suggest that the writer review the paper with a native speaker or use the journal's editorial services.	
Optional/General comments	- The paper is acceptable, with a common topic, but lacks a thorough discussion. -	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
