**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>This manuscript is focused on an interesting and very actual topic. However, it requires an extensive revision, starting from English use not always easily understandable.</p> <p>The authors should consider improving the quality of figures proposed and adding further images (e.g. pictures of species analyzed).</p> <p>I strongly recommend consulting more carefully the extensive literature on this topic and adjusting the bibliography (some articles cited in the text are not listed in the references section).</p> <p>Moreover, scientific manuscript based on experiments involving the administration of substances to fish should report more details on housing, husbandry and pain management.</p> <p>For further guidance authors should refer to the Code of Practice for the Housing and Care of Animals Used in Scientific Procedures, American Association for Laboratory Animal Science or European Animal Research Association.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
