### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Dear Author(s), I suggest complement with more recent references. The statistical analysis at beginning was good because you check normal distribution and variance homogeneity, but you did not explain the posterior statistical analysis, you mentioned that used specialized software, but did not explain the tests in material and methods section. Also if you check normal distribution and variance homogeneity, you must apply some parametric test such as correlation, T-student or ANOVA with his respective multiple comparison tests.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
