

Review Form 1.6

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_92825
Title of the Manuscript:	Effect of Combination of Trash Fish Meal and Wild Taro Leaves Flour on Growth Performance and Physical Characteristic of Juvenile Tilapia Feeds.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Methodology - It is necessary to say the number of tanks (repetitions) for each treatment. It would be interesting to say how the statistical analysis was performed. Result - It would be interesting to indicate on the graph the significant differences in relation to the control and add the significance level in the text (example: $p < 0.01$). Discussion - Considering that there are many variables, and that only a few were analyzed, avoid stating with certainty that a single variable explains the result. But, put it as a possibility. Conclusion - Remove the significance level ($P=0.05$) and put it in the results.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
