Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://journalajgr.com/index.php/AJGR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is relevant but lacks clarity, especially on language and sequencing. The author needs to revisit the paper thoroughly and resolve the clarity issues. The author can use Grammarly software, to see the language problem. It is free. The Paper also does not explain why this issue is important and how it adds value to the scholarship. The conclusion needs to rewrite- it does not say what the author's argument is.	
Minor REVISION comments	As noted above, the issue is very important, however, it is not new. So, there should be more thought of authors, some forecast or recommendations is needed to make complete paper.	
Optional/General comments	Re-read, revise, and resubmit.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
