### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajmah.com/index.php/AJMAH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Detailed methodology is suggested and data analysis is recommended to recheck. It is suggested to revise the finding tables for more clear presentation. Discussion must be revised because it is still representation of study results. Qualitative section should be included the authors' points of view based on quotations of participants. Authors are suggested to conclude base on the finding of logistic regression to reflect the title of manuscript.	
<b>Minor</b> REVISION comments	Wording style and upper-case usage is important for title. It would be better to modify sentence construction in introduction and finding section. Recommendations should be based on both quantitative and qualitative findings. See the attachment	
<b>Optional/General</b> comments	The manuscript will be better if some sections of findings are excluded.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
