

## Review Form 1.6

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_91979
Title of the Manuscript:	Cardiac vs. Non Cardiac Chest Pain: Prospect of Different Pathological and Physiological Etiologies and Managements
Type of the Article	Short communication

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajmah.com/index.php/AJMAH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	When I received the article, I became interested in the topic, but I found a text written in a simple way without highlighting the main events involved in the clinical picture, reinforcing the importance of the differential diagnosis. The authors could be more emphatic in the different diagnoses. The text must receive adequate formatting, and in the current description there are many scattered sentences. The source of the original article must be included below the figures with the citation that they were authorized by the authors of the figure Note that about 30% of the literature has more than 10 years of publication and this fact may interfere with the discussion of the study.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
