PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ul style="list-style-type: none"> Not all Tables are referenced in the text. References should be added for them. References should be written according to Instructions for Authors. The author or authors should include references to the methods used in the tests. The author or authors may also capitalize the trade names of the materials if used in the experiments and include the name and address of the manufacturer. The journal names and page numbers of these two articles in the reference list should be added: Brainstein, J. (2007). Trading the Rain, Should the World's fresh water resources be an international traded commodity?..... Carlow C. Roger, Alan M. McDonald, Alan L. Nicol, & Nick S. Robins. (2011). Groundwater Security and Drought in Africa. Linking Availability, Access and Demand..... Please check the volume number of the following article again. It seems to be misspelled: Chowdhury, S., Mazumder, M.A.J., Al-Attas, O., Husain, T. (2016). Heavy metals in drinking water: Occurrences, implications, and future needs in developing countries. Sci. Total Environ. 569–570, 476–488. Add all authors of the following article: Angulo, F. J., S. Tippen, D. J. Sharp, B. J. Payne, C. Collier, J. E. Hill, ... D. L. Swerdlow. (1997). A community waterborne outbreak of Salmonellosis and the effectiveness of a boil water order. Am. J. Public Health, 87(4), 580-584. A lot of mistakes were determined that the author did not add a space between two words. Watch out for spelling mistakes. I am attaching some examples. Page 1, in introduction part: (Udomet al., 2002), (Xinghui et al., 2009), (Agbaire and Oyibi, 2009). Page 2, in introduction part: (Agbaire and Oyibi, 2009), (Ayantobo et al., 2013). Page 3, in introduction part: (Adeyinka, 2014), (Angulo et al., 1997). 	
Optional/General comments	Generally looking, some mistakes are detected, and some additional information is required. The manuscript can be published as a regular article after corrections changes.
