PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors study the effects of Marijuana and its main compounds on Brain. The review has not been well organized. The main effects of Marijuana should be first introduced in the first paragraph. Then THC, as a main compound of Marijuana can be followed. Furthermore the authors describe the contents confusingly. They talk about rat effects, then discuss human effects, then discuss rat effects again. This is confusing. They should organize the article in good order. So the review should be re-written before further consideration	
Minor REVISION comments	Many grammar mistakes and mis-spelling, should be corrected.	
Optional/General comments	Major revision is needed	

PART 2:
