

## Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_91475
Title of the Manuscript:	Chris-Jerry Distribution and its Applications
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamcs.com/index.php/JAMCS/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>NIL</b>	
<b>Minor</b> REVISION comments	The last keyword, viz, "New distributions" does not seem to be the key word in the article. Kindly check it again and remove it if it is unnecessary. Language needs to be improved. Last term in Eqn (20) is not expressed correctly. Please express it properly. Punctuations and parenthesis need to be checked again especially in section 2.15.	
<b>Optional/General</b> comments	The paper discusses some heavy tailed distributions used for modeling the life time data and suggests a one parameter model by combining exponential and gamma distributions and then compares this model with other models by means of some measures of comparison. Comparison is thoroughly done.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
