

Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_91475
Title of the Manuscript:	Chris-Jerry Distribution and its Applications
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamcs.com/index.php/JAMCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Need professional ENGLISH editing.	
Minor REVISION comments	More complicated and simple distributions have been proposed previously. CJ usage should be discouraged. Derivations in Section 2 are not extensive to prove new proposition. The authors failed to discuss the advantage of this new proposition over the existing distributions. Section 3 could not justify superior performance by mere showing improved performance of CJ over others. I recommend that this paper need major revision and proper discussion Section be introduced.	
Optional/General comments	Abstract: What is the full meaning of LL, AIC, BIC and K-S? Define it at your first mention.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
