### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpcb.com/index.php/AJPCB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It's good, it just needs to add an ethics test where you do an ethics test with a certificate number to avoid conflicts of interest.	
<b>Minor</b> REVISION comments	It's good, it just needs to add an ethics test where you do an ethics test with a certificate number to avoid conflicts of interest.	
<b>Optional/General</b> comments	Already good	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Yes, it is suspected that there is an ethical problem, so there is a need for evidence that the research conducted does not violate ethics to avoid conflicts of interest, namely by writing down the number of ethics-appropriate certificates that have been issued by the relevant agencies.
