PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Thanks for your hard work. Here are my comments below: 1. In methods: 1-1. How did you handle confidentially and anonymously? Could you explain details? 1-2. Regarding to verbal consent, how did you record and documentation? 1-3. Regarding to analysis, plz explain more details, for example, student's T test to answer questions about..... 2. In results, it's hard for to see where student's T test and Chi-squre's outcomes are.	
Minor REVISION comments	1. In abstract: 1. For methodology: 1-1. "X2, T Student". I suggest that spell out of statistic methods. EX., X2→ X ² and student's T-test. 2. In introduction: 1. What is RW? Respiratory Ward (RW)? 3. In Table 1, "Physicia", spell errant?	
Optional/General comments	Generally speaking, the manuscript would be benefit from a through editing to limit rambling narrative and help with the focus.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
