PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The abstract contains a long sentences. It needs rewriting . The introduction contains a long sentences. It contains old references. Materials and methods: The authors should mention experimental conditions such as temperature, ventilation and stocking density. The authors should mention, how they measure carcass traits and internal organs weight. The results contain parameters that the authors did not mention in the materials and methods such as carcass traits and weight of internal organs. The references: There are a lot of old references. I suggest replace it with newer references.	
Optional/General comments
