Compulsory REVISION comments		
Minor REVISION comments	Thank you for asking my opinion about the manuscript entitled "Effect of Integrated Approach of Yoga Therapy on Noninvasive Cardiovascular Responses: Study on Young and Older Healthy Males". I believe that this manuscript should be major revision: There were several good things about the paper, such as aim good. But the abstract should be reformulated and the objective of the study should be well highlighted. 1. The abstract should be completely changed. 2. In the introduction, include the significance. What makes the study different from the rest and what does it add to the current knowledge? 3. In the introduction, the authors should have explained the purpose of this study and the existing gaps in this field and explained why this study was conducted. 4. There are a lot of grammatical errors. This must be taken care of and addressed. viewer's comment
