Manuscript Number:	Ms_AJRCD_93471
Title of the Manuscript:	Surgical treatment of a coronary artery fistula that has opened into the pulmonary artery
Type of the Article	Case report

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijrc.com/index.php/AJRCD/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The authors present an interesting case report regarding the surgical treatment of a coronary artery fistula that has opened into the pulmonary artery. The article is well-written and structured, the results are presented properly and may have important clinical implications. In my opinion, this case report is valuable and sound, and may be published in its current form.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
