### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In section 5.1, the Author should note that the binary10001011011011 is partitioned into 5-bits blocks each. (Since n =5). Hence: B1 = 11011 B2 = 10110 B3 = 01000 and NOT 1000 as claimed by the Author. Also in Section 5.1, the computation of x3 is wrong, however the answer is correct coincidentally. Author should remember that the value of n = 4 an NOT 5 as claimed in the computation of x3 in section 5.1.	
<b>Minor</b> REVISION comments	Authors citation is not serial: Citation number should be serial and conform to reference, e.g. in the text, the first Author cited is labelled as [1], second Author labelled [2] e.tc. which corresponds to their names in the reference section labelled [1], [2] .... (respectively).	
<b>Optional/General</b> comments		

### PART 2:
