

Review Form 1.6

Journal Name:	Asian Journal of Research in Nephrology
Manuscript Number:	Ms_AJRN_92187
Title of the Manuscript:	Glucose -6-Phosphate Dehydrogenase (G-6-PD) Status and Kidney Functions Evaluation in Patients with Acute Kidney Injury in Two Tertiary Hospitals, Sokoto
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrn.com/index.php/AJRN/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	It would be good if the authors could refer to previous studies where reference is made to the type of variants prevalent in the sampling area if there are previous reports indicating which variants are prevalent in the study area (Sokoto) and correlate it with the clinical data found. It would also be of interest to strengthen this and subsequent studies to make the biochemical correlation that validates this or these particular variants. It would be very interesting to analyze which are the variants and biochemically validate their deficiency. It would be interesting to determine if there is more than one variant in the study and if one of these is mostly represented in the control group but with the deficiency.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
