PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The work is interesting and well structured but incomplete. The need for correct information on the importance of corneal donation is correctly exposed. The positive results of a teacher training course on the donation itself are well illustrated also using tables and figures, interesting observations are present. Bibliographic references are abundant and appropriate. however the course in which the teachers participated and the questionnaire with which their predisposition towards corneal donation was checked are not described but only cited.	
Minor REVISION comments		
Optional/General comments
