### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrs.com/index.php/AJRS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. Complications of NOM not mentioned.</li><li>2. Histopathological examination showed a total of 16 reports, whereas only 12 had been operated.</li><li>3. One patient had normal appendix in histopathological examination. Kindly explain the category under which this patient was treated. (Ie) low PAS with positive Ultrasound of high PAS with negative ultrasound.</li></ol>	
<b>Minor</b> REVISION comments	(During our series we performed only 11 laparoscopic appendectomies out of 70 patients.) I feel that the total number in the series should be 12. (11 LAP AND 1 OPEN)  (One patient out of 59 initially treated, patients was readmitted after 6weeks during the follow up period and was operated by laparoscopy.) The comma mark should be in the correct position.	
<b>Optional/General</b> comments	. Any patient got readmitted after six months of follow up within that 1 year time frame.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
