PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I really had difficulties not exactly to understand which are the disruptive concepts, but why they are disruptive. I strongly recommend author(s) to stress it out in the manuscript I would recommend the manuscript to be published if author(s) considered the remarks presented after my review (see part I of this form).	
Minor REVISION comments	Page 9. Substitute "fundamental rights" to "human rights". Fundamental rights is an expression the refers to the positivation of human rights in a State legal system. Human rights fits better in the phrase.	
Optional/General comments	Where I live and considering the Journals I usually read and make my researchs, it is not common to make quotes in the conclusion. If its ok for this Journal to publish the article in its original format, no problem at all.	

PART 2:
