Compulsory REVISION comments	<p>The paper introduce anew study develop a hybrid optimization model for solving the routing problem identified at Zoomlion Ghana Limited in Shama district in the Western Region of Ghana. Two main optimization models were considered: Particle Swarm Optimization (PSO) and Genetic Algorithm (GA). A hybrid algorithm was developed from the two by merging crossover and mutation operators of GA with PSO.</p> <p>The research is excellent, as it addresses one of the problems of life in a purely scientific manner, and I highly recommend publishing the research in your respected journal.</p>
