

Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_91542
Title of the Manuscript:	Common fixed point theorems for four weakly compatible self maps along with (CLR) property in fuzzy 2-metric spaces
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	<p>Reviewer's comment</p> <p>In this paper, it has been proved that some common fixed point theorems for four weakly compatible self-maps along with (DMS) property in fuzzy 2- metric spaces.</p> <p>The results are improved the version of the theorems proved by Shojaei et al. [Fixed point theorems for weakly compatible maps under E.A. property in Fuzzy 2-metric spaces",6(2013), 118-128], since the results does not require closedness of ranges of subsets of X.</p> <p>In [Fuzzy Sets", Inform. and Control, 8 (1965), 338-353], L. A. Zadeh introduced the notion of fuzzy sets</p> <p>A lot of the authors has proved several fixed point theorems by using the concept of fuzzy set theory. The notion of 2-metric spaceswas introduced by Gahler [Math. Nachr. 26 (1983), 115-148.], [Math.Nachr.18 (1964), 1-43] and [Math. Nachr. 42 (1969), 335-347].</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The main motivation and contribution should be highlighted at the end of theIntroduction. 2. At the end of the Introduction, which theorems correspond to whichconclusions need to be clearly stated?. 3. The numbering of the equations preferred to be added according to thenumbering of Sections. 4. All references should be cited in the text in sequence (instead years which are indicated in the Text). For example, the first cited item should be ref. [1]; thencomes ref. [2].... Etc. 5. The Conclusion should be added at the end of the article. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
