General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	All over the paper, math formulas must be written using Equation Editor. For example, in Theorem 1.1, (X,d) and $T :X \rightarrow X$ are written from the keyboard, not in Equation Editor as the contractive condition from the third line of this theorem (and so appear two kinds of T, for example)!	
Minor REVISION comments	All over the paper, between author's name and the number of the reference should be a space (for example, page 1, line 3 of Introduction section: "Kannan[13]" should be "Kannan [13]" Page 1, line 4 of Introduction: "is done" instead of "done" Delete " from the end of theorem 1.1 Page 1, line 7 from the bottom: "principle proved by Matthews[20]" should be "principle was proved by Matthews[20]" Line 4 from the bottom: "Some generalizations given by many authors of the outcomes of Matthews (" should be "Some generalizations are given by many authors of the outcomes of Matthews in (" Page 2: Line 2: " satisfy:" should be "which satisfy:" or "satisfying:" Page 3: Second line of the Proof of Theorem 2.2 must be lifted at the end of the previous one Line 2 after (2.3): should be lifted in continuation of the previous row Line 3 after (2.3): "Then" instead of "then" Page 4: " Now to show" should be " Now we have to show"; "let w_1, w_2 be fixed points of" should be "Let w_1, w_2 be fixed points of" Page 5: Line 1: we have ... what? In the end of the first line of the proof of Theorem 2.3, put "," instead of "." and "Put" from the next line should be "put" and should be lifted with one line Page 7: In the proof of Theorem 2.4, "Since ... condition of Theorem 2.2. So..." should be " Since ... condition of Theorem 2.2, it follows that" Page 9: in References sections the author(s) must be very careful when writing the items. For example, in [1], "Ramaguera" is "Romaguera", "con-tractive" should be "contractive", "Revista de la Real Academia de Ciencias Exactas, Físicas y Naturales" should be "Revista de la Real Academia de Ciencias Exactas, Físicas y Naturales" Reference [21] is cited in the paper?	
Optional/General comments	Page 1, lines 3-4 from the bottom: "[1, 2, 3, 4, 5, 14, 15, 16, 17]" can be written "[1-5, 14-17]"
